India records Highest-Ever Exports in First Half of FY26

NEW DELHI: India has delivered its strongest-ever export performance in the first half of FY 2025-26, signalling resilience amid a challenging global trade environment. Overall exports between April and September 2025 rose to \$418.6 billion, up from \$395.7 billion in the same period last year, **Minister of State for Commerce and Industry Jitin Prasada** informed Parliament recently.

The 5.8% growth marks India's highest export achievement for any half-year period. The Commerce

Ministry noted that export momentum remained steady, although October 2025 recorded a slight dip due to an unusually high base from October 2024, which had posted record monthly figures.

Prasada said India's export push is supported by "credibility, resilience, and proactive global engagement," with ongoing high-level trade dialogues expected to secure long-term market gains. He added that structural reforms, improved logistics, increased port capacity, and targeted facilitation

measures have significantly strengthened the trade ecosystem.

The Production-Linked Incentive (PLI) scheme continues to boost domestic manufacturing, while services exports remain a major pillar of India's external trade.

The government also informed Parliament that India has concluded five major Free Trade Agreements (FTAs) in the past five years — with Mauritius, the UAE, Australia, the European Free Trade Association (EFTA), and the India-UK FTA, which will take effect after ratification.

Maha Govt to build high-speed freight corridor between Vadhavan Port and Samruddhi Marg

MUMBAI: The Maharashtra State Minister Dadaji Bhuse recently informed the Assembly that the state cabinet has approved the construction of a 104.9-km high-speed freight corridor to directly connect the upcoming Vadhavan Port with the Samruddhi Mahamarg (Hindu Hruday Samrat Balasaheb Thackeray Maharashtra Samruddhi Mahamarg).

The cabinet has also given its approval for the design and land acquisition for the high-speed freight corridor.

The Minister, in a reply to a question of Shiv Sena (UBT) legislator Mahesh Sawant and others, said the loan will be raised from HUDCO for the land acquisition.

He added that the planning will be made for project expenses after

examining the viability, following the receipt of the detailed project report.

Minister Bhuse said the 104.9 km high-speed freight corridor will connect Vadhavan Port in Palghar district to the Samruddhi Expressway at Bharvir in Nashik district.

Vadhavan, being developed as a major transshipment hub under the Centre's Sagarmala initiative, is expected to emerge as one of the country's leading ports. The project will be executed by the Maharashtra State Road Development Corporation (MSRDC) and is slated for completion within three years.

The Minister further stated that the expressway will pass through Dahanu, Vikramgad, Jawhar, and Mokhada talukas of Palghar district, and Trimbakeshwar and Igatpuri

talukas of Nashik district.

The corridor will significantly reduce the travel distance between the port and the expressway from about 183 km to 105 km. This will cut the travel time for freight from the current 4-5 hours to just 1-1.5 hours.

"It is a crucial strategic link to support the expected high volume of international cargo from the Vadhavan Port, a major transshipment hub being developed under the Centre's Sagarmala initiative," said the Minister.

He noted that the high-speed link will enable faster and more cost-efficient movement of goods, benefiting industrial and agricultural sectors in Vidarbha, Marathwada, and North Maharashtra by providing a Direct Gateway to the Western Coast.

Logistics costs once as high as 16% of GDP have now fallen to 9% : Nitin Gadkari

NEW DELHI: Union Road Transport and Highways Minister Nitin Gadkari on Wednesday said India's logistics cost has dropped significantly due to rapid improvements in road infrastructure, bringing the country closer to the global benchmark. Speaking at Amazon Smbhav 2025, Gadkari noted that logistics costs — once as high as 16% of GDP — have now fallen to 9%.

"Alluding to India's traditionally high logistics costs, one of the challenges for MSMEs, I can confidently say today that logistics cost is coming down to 9%," Gadkari said. He cited findings from IIM Bangalore and IIT Kanpur, which indicated a 6% reduction driven by better roads.

Gadkari highlighted India's extensive road network of 63 lakh km, the second largest globally. He added that the government is developing 28 access-controlled expressways to

further reduce logistics costs. "We are just six days away from starting the bridge from Akshardham for the Delhi-Dehradun Highway. After opening, Delhi to Dehradun will take only two hours, and Delhi to Mumbai will be 12 hours," he said. Over Rs. 1.5 lakh crore is being invested in road projects across the National Capital Region.

Addressing environmental concerns, Gadkari said the government is implementing preventive measures to curb pollution from the transport sector, which accounts for nearly 40% of air pollution. He reiterated his long-standing push for alternative fuels, including biofuels and hydrogen. "Hydrogen is the fuel of the future. I even have a hydrogen car," he remarked. He also noted that 80 lakh tonnes of solid waste are being used in construction projects in Delhi and

Vadodara, with recyclables such as plastic and aluminium being recovered and organic waste converted into Bio-CNG.

Urging Amazon to prioritise rural, agricultural, and tribal sectors, Gadkari stressed the need to boost economic contribution from agriculture, which currently accounts for just 12% of GDP despite engaging 60% of India's population. "This is the time for Atmanirbhar Bharat. We need rural India where new technology, economic viability, raw material availability, and marketability converge," he said.

At the event, Amazon announced plans to invest more than \$35 billion across its businesses in India through 2030. Amazon Smbhav is the company's flagship annual summit bringing together government leaders, industry stakeholders and MSMEs.

EFC Group & Intermodal Tank Transport (ITT) announce their Indian Joint Venture – ITT Logistics India

Mr. Matt Caldwell
 President & COO
 Intermodal Tank Transport

Mr. Matthew Hanafin
 Regional Manager
 Intermodal Tank Transport

MUMBAI :
 EFC Group of Companies, one of India's most

respected and diversified supply-chain and logistics conglomerates, has entered into a strategic joint venture with Intermodal Tank Transport (ITT), a globally recognised leader in ISO-tank operations.

This collaboration marks a milestone in India's bulk liquid logistics landscape, with the formal unveiling of ITT Logistics India Pvt. Ltd. during a Corporate Trade Meet & Greet held on December 10, 2025, at the Radisson Blu Mumbai International Airport.

Deendayal Port clears 62 acres of encroached land to fast-track new development projects

GANDHIDHAM: Deendayal Port Authority (DPA), Kandla, has reclaimed 62 acres of prime land following a major encroachment removal drive, paving the way for a series of upcoming infrastructure and green-energy projects.

DPA Chairperson Sushil Kumar Singh said the operation targeted long-standing illegal settlements across the port estate. "Our special drive cleared about 400-500 hutments, semi-permanent structures and some permanent houses. With this, 62 acres have now been freed from encroachment," he said. Singh added that the action was carried out with full support

from the state police and district administration.

The newly vacated land will be used to accelerate several expansion initiatives at Kandla Port, including projects tied to capacity augmentation, decarbonisation, green hydrogen, and green methanol. "Many new projects are in the pipeline, and this land will play an important role in accommodating the infrastructure required for them," Singh noted.

The encroachment clearance comes at a time when DPA Kandla has been posting strong operational performance.

Last month, the port set a new benchmark in LPG handling, with IOCL's LPG Terminal managing 15 LPG tankers and 2,70,551 metric tonnes of cargo as of November 27,

surpassing its previous best of 14 tankers recorded in March 2024. The authority projected that the monthly total could reach 17 tankers by the end of November.

Kandla Port has also notched another operational record with a 24-hour discharge of 15,687 cubic metres of pine logs from the vessel MV TOMINI SOLANO. Notably, the entire operation was executed using electric vehicle (EV) loaders, reflecting the port's ongoing shift toward greener and more energy-efficient cargo handling.

These consecutive milestones, coupled with the clearing of strategic land parcels, underscore Deendayal Port Authority's push to modernise operations and support India's broader maritime infrastructure growth.

Haldia Dock complex posts record 49% cargo growth in November

KOLKATA: Kolkata's Syama Prasad Mookerjee Port recently announced that its Haldia Dock Complex (HDC) achieved a robust 48.97% year-on-year growth in container handling for November, marking one of its strongest monthly performances to date.

HDC handled 21,691 TEUs during the month, significantly higher than the 15,231 TEUs recorded in November last year. The port authority attributed this surge to enhanced operational planning, improved vessel turnaround, and stronger coordination among cargo-handling teams.

The latest performance also surpassed HDC's recent highs of 20,133 TEUs in January 2025 and

20,627 TEUs in September, reinforcing the dock system's positive growth momentum in container movement.

Syama Prasad Mookerjee Port described the achievement as a "significant milestone," though it did not release corresponding performance figures for its Kolkata Dock System (KDS). The port's overall operations are divided between HDC and KDS.

Govt to make proposed shipbuilding financial assistance scheme flexible

NEW DELHI: The Government is expanding the scope of the recently approved Rs. 20,416-crore Shipbuilding Financial Assistance Scheme (SBFAS) to accelerate domestic vessel construction and ensure full utilisation of the fund. The scheme will now cover orders secured on nomination from Central and State governments, PSUs and defence vessels meant for export, excluding the cost of weapons.

India plans to build over 350 ships worth nearly Rs. 2.2 lakh crore under its fleet expansion programme. To support this, the Ministry of Ports, Shipping and Waterways is proposing more flexible guidelines compared to the existing Shipbuilding Financial Assistance Policy (SBFAP), which ends on March 31, 2026.

Shipyards will be permitted to avail benefits from other Central or State schemes in addition to SBFAS—an option not allowed under the current policy. For contracts signed between September 24, 2025, and March 31, 2026, builders may choose between SBFAP and SBFAS.

Future favourable amendments to SBFAS will also apply retrospectively to vessels with in-principle approval.

Vessels under construction under SBFAP may additionally benefit from the newly introduced shipbreaking credit note, issued when a vessel is scrapped at a certified, HKC-compliant recycling yard. The credit note will be valued at 40% of the fair scrap value, valid for three years, and can be redeemed up to 5% of the cost of a new vessel.

The Rs. 20,416-crore scheme, aimed at building large, green and specialised vessels, is expected to support nearly Rs. 96,000 crore in shipbuilding until 2036, with in-principle approval extending to 2047.

Financial assistance will be

capped at 15% for small normal vessels up to Rs. 100 crore, while larger vessels will receive 15% on the first Rs. 100 crore and 20% on the remaining cost. Specialised vessels will receive 15% on the first Rs. 100 crore and 25% thereafter. Payments will be made in three stages—keel laying (30%), launch (40%) and delivery (30%).

Specialised vessels covered include oil and gas carriers, offshore units, dredgers, wind installation vessels, cable layers, large passenger ships, container vessels above 8,000 TEUs, and green-fuel ships such as methanol, ammonia and LNG-powered vessels.

An industry executive said the policy shift marks a major boost for domestic shipyards: "The government is now willing to provide assistance even for nomination-based orders to maximise utilisation of the fund."

The expanded scheme is expected to significantly strengthen India's shipbuilding capabilities and enhance competitiveness in the global market.

EFC Group & Intermodal Tank Transport (ITT) announce their Indian Joint Venture – ITT Logistics India

Cont'd. from Pg. 3

With more than 41 years of operational excellence, the EFC Group offers end-to-end multimodal logistics services including transportation, warehousing, container freight operations, reefer terminals and freight forwarding. The Group manages a formidable network of vehicles, catering to FMCG, chemicals, cement, steel, bulk commodities and specialised cargo across India. Its container and reefer terminals, including those at Nhava Sheva, further strengthen its integrated supply-chain capabilities.

Founded in 1993 in Medellin, Colombia, South America, Intermodal Tank Transport (ITT) is a global logistics entity specialising in the movement of bulk liquids in ISO-tank containers through a multimodal combination of road, rail and sea. ITT operates a modern fleet of tank containers and provides services such as tank rental, cleaning, storage and freight forwarding for chemical, food-grade and other liquid cargo.

Following ITT's global merger with Bulktrainer (BTL), the combined entity ranks among the Top 10 ISO-tank operators worldwide, with an extensive inventory of T11, T14, electric-heating and food-grade tanks. Through this joint venture, ITT India will significantly expand access to global trade lanes, enhance import-export capabilities and offer the chemical industry an expanded product and service portfolio.

The launch event was graced by leadership teams including **Mr. Kalyan Chowdhury, Mr. Pramod Kumar Gupta, Mr. Pravin Kumar Gupta**

(EFC Group Directors), **Mr. Matt Caldwell** and **Mr. Matthew Hanafin** (ITT Global Representatives), and **Mr. Sumit Chakrabarti** (Director – Logistics, ITT India).

The event received an overwhelming response with participation from leading Indian exporters and importers such as Jubilant Ingrevia, Galaxy Surfactants, Deepak Phenolics, Aarti Industries, UPL Ltd, Clariant IGL Specialty Chemicals, Vippy Industries, Vinati Organics, Atul Ltd, Laxmi Organic Industries, SRF Ltd, OC Specialities Chemicals, Aquapharm Chemical, Best Value Chem, Epigral Ltd, Prakash Chemicals, and several others.

NOTICE TO CONSIGNEES

NYK INDIA PRIVATE LIMITED

(As Agent of NYK Bulk & Project Carriers Ltd.)

(Formerly known as NYK Auto Logistics (India) Private Limited, in which NYK Line (India) Private Limited has been merged)

CIN No.: U63000MH2004PTC143860 / PAN No. AAACH7663P

m.v. "ISE" V-155 I. G. M. No. 1167206 DTD : 03/12/2025

The captioned vessel is arriving at **MUMBAI** on 14/12/2025 with Import cargo.

Consignees expecting import cargoes on the captioned vessel are requested to present their ORIGINAL BILLS OF LADING duly discharged and obtain Delivery Orders. In the event of Mumbai Port Trust directing the shifting of the cargo from quay to a storage area within the docks, the same will be undertaken by the vessel agents at the consignee's risks and costs.

"Stamp duty" is payable as per the directive of the Superintendent of stamps.

Consignees will please note that the Carriers and/or their agents are not bound to send the individual notifications regarding the arrival of the vessel or their cargo.

Consignees are requested to arrange for clearance of the cargo at the earliest on presentation of the packing list to our attending surveyors, as it is noticed that the cargo is arriving without proper Marks & Numbers and the same is also not indicated in the Bills of Lading for which the vessel/Owners/Agents will not be held responsible for the consequences arising thereof.

Consignees requiring steamer survey to be conducted for the goods discharge may contact the agents office for the same.

The company's Surveyors are **M/S. AINDLEY MARINE PVT. LTD.**

9 Kamanwala Chambers, 1st Floor, Sir P. M. Road, Fort, MUMBAI- 400001

Tel: +91-22-66359901/2/3 E-mail : Email: ops@aindley.com and the usual survey conditions will apply.

The year 2025 has been a period of significant change for the logistics sector : Ketan Kulkarni, MD & CEO, Allcargo Logistics

MUMBAI: "The year 2025 has been a period of significant change for the logistics sector, and for us at Allcargo Logistics, it brought emerging opportunities and steady progress. With the recent merger of our domestic supply chain business, including Express Distribution and Consultative Logistics, we continued to strengthen our strategic direction and operational focus.

Evolving trade patterns due to geopolitical shifts influenced the supply chains dynamics, and we had to adopt a nimble approach to maintain operational resilience. Our focus on strengthening our multi-channel reach and empowering teams helped us maintain service reliability even during volatile phases.

A significant part of our journey this year was the steady growth of our express and Consultative logistics business. The rise in consumption, the expansion of emerging markets, and the growing customer expectations around speed and predictability enabled us to enhance our network, improve turnaround times, and bring more transparency to operations. What encouraged us most was the strong customer confidence in our ability to deliver end-to-end, especially in segments where precision and consistency matter the most.

We made significant progress in strengthening our digital backbone, setting the stage for the next phase of transformation. Our AI-led Gate Scan & Bay Management App is streamlining hub operations with smarter vehicle and dock movement, while HubEye is offering us network-wide intelligence that strengthens our ability to plan, respond, and operate with greater agility. Together, these automation- and data-led innovations are building a scalable, resilient, and customer-focused tech ecosystem that equips us to lead with speed and innovation.

Government's continued commitment to strengthening

the logistics ecosystem through forward-looking policies and continued capital expenditure. Initiatives that enhance transparency through wider access to PM Gati Shakti, along with measures that simplify export processes and expand credit support for MSMEs, demonstrate a clear focus on improving competitiveness and enabling sustainable growth. The government's emphasis on rural development, infrastructure expansion, and greater financial ease for businesses and citizens in terms of GST rationalisation will further stimulate demand, strengthen supply chains, and contribute to long-term economic progress.

As India progresses toward the Viksit Bharat 2047 vision - powered by multimodal infrastructure development, resilient supply chains, manufacturing growth, and digital infrastructure development, we see logistics emerging as a central enabler of national growth. This long-term aspiration strengthens our resolve to build future-ready capabilities, deepen operational efficiencies, and contribute meaningfully to India's transformation into a globally competitive, innovation-led economy.

We are entering 2026 with a strong momentum. India's manufacturing growth, exports and the continued push from e-commerce and new-age supply chains will shape demand. Automation, greener mobility and data-driven technology deployment will become even more central. At Allcargo Logistics, our focus will be on deepening digital capabilities, improving sustainability across operations and expanding the reach and reliability of our express and consultative logistics offerings."

Mr. Ketan Kulkarni

COSCO announces Historic \$7 Billion Order: 87 New Vessels to Drive Fleet Restructuring Strategy

SHANGHAI: In an industry accustomed to mega-deals, China's COSCO Shipping Group has signed newbuilding order for 87 vessels, covering the entire spectrum of its current fleet operations. China State Shipbuilding Corporation (CSSC) reported the value of the order at approximately \$7 billion, though it noted in stock exchange filings that final terms are subject to change as projects progress.

Chinese media reported that this is the largest order ever placed between a shipping company and a shipyard in China. The deal was announced with a level of fanfare commensurate with its scale.

COSCO termed the contract a crucial measure to adapt to market trends. The group emphasized the order as a move to maintain the company's scale advantage while optimizing its fleet. The company stated the vessels will reflect emerging market trends of "large-scale, green, and intelligent development."

Comprehensive Segment Coverage

No specific delivery timeline has been released, but the companies emphasized that this cooperation framework will touch upon all of COSCO's business segments. These include container shipping, dry bulk, oil and gas, specialized transport, and passenger transport.

Among the vessel types mentioned are:

- Ultra-large container ships
- Ultra-large bulk carriers
- Very Large Crude Carriers (VLCCs)
- Grain carriers
- Multi-purpose heavy lift vessels

- Medium Range (MR) tankers
- Ro-Ro vessels and smaller container ships.

Strategic Handshake with CSSC

This deal comes just months after CSSC completed its latest restructuring designed to boost efficiency and competitiveness. In the announcement, they stated that most of their member units would participate in this project, including Jiangnan Shipyard, Dalian Heavy Industry, Wuchang Shipbuilding Industry, Guangzhou Shipbuilding International (GSI), China Shipbuilding Chengxi, and Beihai Shipbuilding.

This move suggests COSCO appears unconcerned by U.S. plans to impose fees on Chinese-built and owned vessels. Observers had previously pointed out that the company could face billions of dollars in fees if the U.S. does not agree to postpone the application of these fees for a year as part of trade negotiations.

Expanding an Already "Massive" Orderbook

While the new framework may incorporate some previously announced orders, it also indicates an expansion of COSCO's already massive orderbook.

Data from Alphaliner indicates the group already has 82 container vessels with a total capacity of 1.1 million TEU on order. Year-to-date, according to media reports, COSCO has ordered 25 Capesize bulk carriers. Two months ago, the company also added 23 bulk carriers and 6 VLCCs to its order list.

Analysts note that an order of this magnitude is likely to create ripple effects throughout the industry for months to come.
